

# Maddy Walsh & the Blind Spots

*Five-piece Moxy Rock band based in Ithaca, NY  
steered the soaring vocals of magnetic songwriter  
and force of nature Maddy Walsh*

The band is known for its high-energy, danceable shows and sparkly aesthetic, from Walsh's signature sequins and white go-go boots, to the Blind Spots' Thrift Shop, to their collection of music videos created to accompany songs on all four albums with a fifth on the way.

MW&TBS has shared event bills with Mavis Staples, Lake Street Dive, Lucius, Fitz & The Tantrums, Valerie June, Rubblebucket, Jukebox the Ghost, The Plain White Ts, Sharon Jones, Blues Traveler, Eddie Money, among others, and they continue to show exponential growth, as they expand their touring radius, gaining new fans and momentum with each electrifying live performance.

They were voted "Best Band in Ithaca" by the Ithaca Times reader poll three years running, and their music was recently licensed for the film Out of Order starring Brooke Shields, Luis Guzman, and Brandon Routh. Their album *Get Free*, is set for release in 2026.
